

Where adolescents (commercially) purchase vaping devices

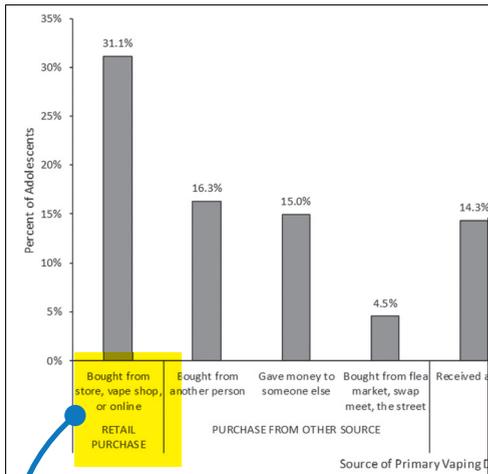

Figure 1. How adolescents obtained their primary vaping devices (n = 1692).

Frequency of using specific device types did not match the frequency of using "other" or "I don't know" device types reported. The most frequently used device type was group 1.

Commercial Source

31.1%

"Among adolescents who reported purchasing their main device..."

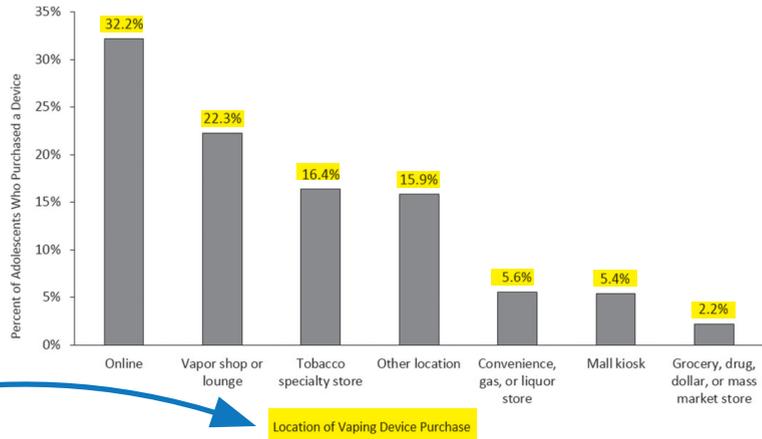

Figure 2. Location of purchase (n = 847).

Advertising: 5.16% Tobacco: 16.4% Other: 15.9% Convenience, gas, or liquor store: 5.6% Mall kiosk: 5.4% Grocery, drug, dollar, or mass market store: 2.2%
